

**Water & Air Purification Services**

Allow The Water Man to treat your home with a disinfectant that is an EPA registered fungicide, sanitizer, cleaner and deodorizer. It kills mold and inhibits the growth of mold and mildew. Kills 99.9% of household bacteria and odor-causing bacteria. It is effective against a broad spectrum of bacteria, is fungicidal, and inhibits odors.

\*The product will be applied in the air and on surfaces to disinfect and sanitize to ensure that all areas have been treated.

**CLEAN, FRESH AIR FOR YOUR HOME**

- EPA registered for use against SARS-CoV-2, the virus responsible for COVID-19
- The only EPA-registered disinfectant that has been tested and registered by global health authorities in the presence of approximately 100% organic soil tolerances, making it safe for plants, pets, and children.
- **KILLS 99.9% OF BACTERIA and VIRUSES:** It's fungicidal and effective against a broad spectrum of bacteria and inhibits odors caused by bacteria.
- **POSITIVELY CHARGED DISINFECTANT:** RMR-141 RTU is a positively charged disinfectant that is powerful and works to easily track down and stick to negatively charged bacteria.
- **STRONGEST MOLD KILLER:** RMR-141 RTU Disinfectant and Mold Killer inhibits the growth of mold and mildew; eliminates odors; and disinfects in one easy step. It's a powerful, safe, and effective way to remove mold, bacteria, and viruses.
